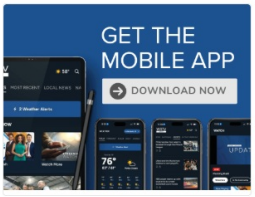
June 2025: Exponentia Prime Summer Math Camp in the News

Was this newsletter sent to you from a friend or colleague? **Sign up to get it yourself here!**

Math, Summer Fun, and Features in the News!

This June, we kicked off our inaugural Summer Math Camp, and it was a hit! So much so, it caught the attention of the **local news**!

Bridging the math opportunity gap: Exponentia Prime Academy's summer camp empowers black and brown students



ADVERTISEMENT

But that's not all...our **end-of-year report** is in, showcasing the incredible progress across all of our programming.

Looking ahead, we're excited to offer an exclusive opportunity for 2 more students to join an advanced math cohort this year. So, whether you're reminiscing about summer camp fun or gearing up for new challenges, there's always something exciting happening at Exponentia Prime! **Reach out the Dr. Jones** to learn more.

In partnership,

Dr. Patrick H. Jones II, Ed.D.

Upcoming Events

There are no July events. Math Circles will resume in August!

Learning in Action

By the Numbers

60%

Did you know that Black students who participate in STEM-focused summer programs are ***60% more likely to pursue STEM careers*** later in life? This highlights the critical role of early exposure and engagement in shaping future success in fields like math and science.

Sign up your student for a learning opportunity with us that can shape the trajectory of their educational and professional careers!

The Exponentia Prime Difference

When asked what impact the EP Summer Math Camp had on their student's confidence and identity, one parent noted, ***"Initially he was dreading coming to a camp focused on math but he then started to look forward to going. He also really enjoyed the new friendships he developed over the course of the camp... He is more confident as he was exposed to higher level math."***

Exponential Insights

Having trouble finding a summer rhythm that actually works for your brilliant child?
"I don't want to over-schedule them, but I also don't want days filled with chaos or endless screen time. When we find that sweet spot—where they're engaged, curious, and content—I see it in their body language. They're calmer. They laugh more. They come alive. But how do I help them land there consistently this summer?"
