May 2025: Exponentia Prime Summer Math Camp

Was this newsletter sent to you from a friend or colleague? **Sign up to get it yourself here!**

We're gearing up for an exciting summer at Exponentia Prime!

- **SUMMER CAMP**: Our inaugural **Summer Math Camp** kicks off on Monday, June 2nd, and we can't wait to see young learners dive into fun, hands-on math experiences.
- **DOCUMENTARY**: We are putting the finishing touches on an **inspiring documentary**, and we'll soon invite our partners and supporters to a sneak peek screening—stay tuned for details!
- **ADVANCED MATH COHORT (ELEMENTARY): We're also thrilled to offer an exclusive opportunity for families interested in accelerating their child's math journey:** we have 4 limited K-5 spots available for our advanced program this year. If you're looking to give your child a pathway to advanced math, this is the chance to make it happen! **Note**: This program will take serious dedication from parents and students.
    - Contact Dr. Jones at patrick@exponentiaprime.com if you are interested.

In partnership,

Dr. Patrick H. Jones II, Ed.D.

Upcoming Events

Summer Math Camp: June 2nd - June 5th

- Grades 2 - 5
- 9:00am - 3:00pm each day
- Location: The PATH School
- A Fun and Engaging Opportunity for the Summer
- **Register Here!**

We will not have Math Circles in June or July, but will resume in August!

Learning in Action

By the Numbers

A comprehensive meta-analysis of 37 studies found that ***students who participated in summer programs with a focus on mathematics experienced significantly better mathematics achievement outcomes*** compared to their peers who did not participate." This statistic underscores the effectiveness of math-focused summer programs in enhancing students' mathematical proficiency.

Exponential Insights

Having trouble finding what to do with your brilliant child this summer?

"I am worried about finding things that will continue to challenge, engage and amaze them! When they are in that state of engagement and amazement, their eyes shine with wonder, and I am always filled with an overwhelming happiness at seeing their reactions. So, the question is how to get them to those moments while avoiding nonstop screen time, forced camps, etc. that inevitably make one or all of us miserable."
